*****A brief introduction of the organization**

a. **Brief history**

b. **Business size** (For the private sector: total number of stocks, shares, bonds/ commodities, etc. For the public sector: Total number of employees)

c. **Product lines**. For the private sector: list complete range of products/ services of the organization. For the public sector: list the specialty of the organization (who does it serve and how)

d. **Competitors**

e. **Brief summary of all the departments**

*****Learning Experiences (Note: Max. 2 pages)**

a. **Knowledge acquired:** Briefly describe the knowledge you gained through your training experience and relate this knowledge to what you learned in specific courses

b. **Skills learned:** Describe the skills and any career-specific abilities that you gained during your internship. Discuss any of the skills that you learned that were helpful during the training. (Note: the skill means the ability to achieve something like reading and understanding reports, analyzing problems, working in groups, etc.).

c. **Observed attitudes and gained values:** Describe the manners, mindsets or values that you found and you perceive as important, in your training program, for a successful career (e.g., hard work, dependability, honesty, etc.)

d. **The most challenging task performed:** Describe the best and the most challenging mission that was assigned to you during your internship, how you performed it, and how you overcame challenges while performing it.

*****Strength, Weakness, Opportunities, Threats (SWOT) Analysis (Note: maximum 2 pages)**

The student is expected to perform a SWOT analysis for the organization he/she trained with during the internship program. It is very important that the student elaborates as this will assist the evaluator in assessing the analysis.

***** Methodology**

Methodology refers to the comprehensive actions of research in internship report. To achieve the required results to establish the objective, some methods are used. This section will clarify the methods which are used to do this project.
